

We are back with breaching charge. First release this year is coming to life. This years Valentine's Day is filthier than Naples (and believe me that's hard to to take - I've just been there some days ago hahaha).

So what is this release all about? It's about a journey from the good old fashioned dubstep by those whom they call [Fused Forces](#) (UK) to the aggro machinestepping tunage of Hollands most exciting dubbokles [Sinister Souls](#) .
