

A violent Dubstep release from the depths of Bristol and Bulgaria. Culture Assault Records presents **Statix vs Balkansky - An epic Grudge Match!**

To put it simply, [STATIX](#) is dubstep's answer to Bad Company. Quite a title? With distinctive records such as 'Mind Over Matter' & 'Purgatory' shredding their way through the dubstep scene, it's one that is definitely justified.

Statix means Well, nothing actually, there isn't a reason behind the name, although there is a reason as to why Statix contains 5 members. Eddie, Ross & John take care of the beats, while arguably Bristol's finest dubstep MC duo Shadz & Frilla slingshot hooks and bars on an unsuspecting audience.

Balkansky is the name for the [Ivan Shopov's](#) dubstep and brain dance music.

Ivan Shopov has started making electronic music 12 years ago and now he is well known dubstep producer and dj released a lot of vinyls and digital releases for labels such as Subtrakt, Kuker, Ad Noiseam and Rottun.

Coming from Bulgaria, his biggest inspiration is the nature and the mountains and that is where the name Balkansky came from, as Balkan is the name of the mountain chain in Bulgaria where he was grown.
