

For all you budding producers out there Loopmasters have released the next instalment in Sample Pack Label Series.

Here for the first time producers can get their hands on the Full Cycle sounds and samples which helped make them the biggest force in Drum and Bass, with this heavyweight collection of sonic stimuli created especially for Loopmasters by the Full Cycle team themselves.

The Full Cycle camp is almost directly synonymous with Drum'n'Bass's "Bristol sound", both being primarily associated with Roni Size, DJ Die, DJ Suv and DJ Krust. In the late 1990's, Full Cycle was at the peak of its creative powers, the Reprazent project had brought Drum & Bass to the attention of the masses and Full Cycle was the crew's spiritual, underground home.

The breaks were recorded live at Full Cycle / Channel House studios in Bristol and everything was recorded using high end vintage outboard equipment and then processed digitally.

In detail you can expect to find 34 Cone Shaking Bass Loops, 83 Hard and Broken live played and reprogrammed Drum and Bass Drumloops, 43 Tearout Musical Loops, 11 Vocal and FX Loops, 46 DnB Percussion Loops, 77 Deep Bass Stabs, 70 Individual Drum and Bass Drum Samples, 20 Instrument one shot sounds, 68 Vox and FX samples and 47 ready to play patches for Reason NNXT, Halion, Kontakt, and SFZ.

The complete collection weighs in at 850Mb, with 450 Wav Files, 217 Rex Files, and 47 Patches. The collection is also available as a Reason Refill, Ableton Live Pack, and as Apple Loops.

If you want to sample the source of the evolvment of the world famous Bristol Drum and Bass Sound, you cant get anything more authentic than the Full Cycle Artist Samplepack from

Loopmasters.

“All of the sounds in this collection are original, created from analogue and software synths and live instruments. What we’ve tried to do is give you a collection of samples which you can use over and over, that you can rely on when you need that certain sound quickly, to keep the creative process flowing!”...D Product.

“Recording of the beats on this collection spanned over two years, all recorded at Channel House Studios with additional production from Roni Size, D Product, and some vital input from Krust”...Yuval Gabay a.k.a Uvray
