

FREECULTASS003: Culture Assault Recs dubstep division delivers another free release! is here!. Once again we offer you free downloads for your listening pleasure.

dub's track is nothing short of an industrial-spiced heavy roller which will lift your feet off the ground the moment you hear it.

Reagge samples mixed with fuzzy basslines with metallic hits  
and atmospheric bleeps certainly do the job.

Loop Stepwalker creation takes a more minimalistic approach  
with the same kind of industrial feel mixed with a dancefloor friendly  
lead synth. All chopped up, mashed and glued together in what  
Loop Stepwalker calls "Swordance"

Feel free to get both of these tracks for free, and make sure  
to check out both Culture Assault Recs website & myspace  
for future free downloads. Don't forget to visit Rdub's and  
Loop Stepwalker's mysites to find out what they're cooking up next.

We hope you enjoy this release! Spread the word, and take care!
